

# ENTUITIVE

## Sanja Bunčić dipl. ing. gradj. CEng MIStructE ASSOCIATE

An Associate at Entuitive, Sanja has over nine years of industry experience and strong expertise in foundation design. Her portfolio covers a broad range of projects including structural design for several high-profile residences, challenging basement excavations, cultural and institutional projects. She leads a number of major ongoing projects in the UK.

Sanja enjoys refining work flow processes to ensure clients receive the highest level of service and successful project outcomes. Sanja, working with Entuitive's global QC team, has taken on a leadership role to oversee quality control systems across the firm's UK operations.

### Education

dipl. ing. gradj. in Civil Engineering from the University of Belgrade (equivalent to MSc)

### Memberships

Institution of Structural Engineers

### Awards

RIBA London Award, "White on White" Residential Expansion, 2015

RIBA Regional Award, Sherborne Music School, 2012

### Temple Inn, Somerset, UK

Architect: Archio

A 1,273m<sup>2</sup> development, renovating an abandoned pub and surrounding area into nine new homes and ten guest rooms. The engineering design included a focus on acoustic separations and sensitive setting of the Grade II Listed building.

### White on White, London, UK

Architect: Gianni Botsford Architects

The goal of the project was to de-materialize the extension against the existing white stucco elevation of the house. The design included a sunken glass enclosure and a steel balcony cantilevering off the rear bay window structure.

### What We Can't Do Alone, We Can Achieve Together, Surrey, Canada

Designer: Studio Roso

The artwork is suspended from the roof structure of city hall in Surrey, Canada and comprised of a flock of bird-like shapes. The engineering design included a focus on concepts for the support of the flock, designing the individual connections and ensuring the structure would remain safe during an earthquake.

### Sherborne School Music Building, Sherborne, UK

Architect: ORMS

A new music teaching and performance building in reinforced concrete on a school campus situated in a very architecturally-sensitive area surrounded by prominent listed and ancient buildings. Shortlisted in the British Council for School Environments (BCSE) Best of British Schools Awards 2012 and winner of RIBA South West England Award.

### Nova Pavilions, London, UK

Architect: PLP Architecture

Three public spaces connected with the re-development of Victoria in London, including pavilions with operable canopy-like doors. The engineering design included a focus on the steel frames, cladding connections and bespoke mechanisms for the doors.

**The Stratford Shoal, Stratford, UK**

Designer: Studio Egret West

Sanja acted as the Cat III checking engineer for a number of public art installations coinciding with the London 2012 Olympic and Paralympic games. The engineering design included a focus on the piled foundations, dynamic behavior of the tubular frames, an assessment of pertinent modes of vibration and their associated frequencies and review of the fatigue life.

**Vauxhall Bridge Road Offices, London, UK**

Architect: Space Group Architects

The mixed-use development on Vauxhall Bridge Road, near Victoria Station in London, underwent refurbishment and extension. The project was shortlisted for the New London Architecture 'Don't Move, Improve!' Award, 2013/14 for best Office Refurbishment.

**East Street at Barking Town Centre, London, UK**

Architect: RUFFNASSETTI

The project includes the development of a mixed use scheme on a block in Barking Town Centre with commercial space at ground level and residential units on upper floors. The site has two key frontages to the historic high street and to the new town square, while in the heart of a conservation area. An existing building, originally built in the first half of the 20<sup>th</sup> Century, will be largely retained as a retail space.
