

DEVELOP, MAKE A DIFFERENCE, CHANGE THE GAME

A PLACE WHERE YOUR UNIQUE IDEAS ARE INVITED. WHERE YOUR TALENTS ARE APPRECIATED. THIS IS ENTUITIVE. A DYNAMIC CONSULTING ENGINEERING FIRM STAFFED BY INDIVIDUALS WHO LOVE WHAT THEY DO.

We need bright ideas and exceptional talent from our people because we promise our clients innovative solutions. So you'll work in a stimulating environment that fosters creativity and encourages collaboration.

POSITION TITLE: **SENIOR STRUCTURAL ENGINEER**

REPORTS TO: **UK DIRECTOR**

JOB SUMMARY

Based in London and reporting to the UK Director, the Senior Structural Engineer will be in a leading role for projects on both the technical side and with a high level of client and architect exposure. The Senior Structural Engineer will work across the diverse projects with which our UK team is currently engaged, ranging from residential refurbishment to architecturally prominent new build and public artworks.

We are seeking to grow our London structural engineering group with a self-motivated individual, who embraces taking responsibility, possesses strong technical design skills and has an excellent understanding of the creative process.

The right candidate will take pride in the projects they work on, both large and small, and help us maintain our high quality of work and client service.

KEY RESPONSIBILITIES

- Acting as a Senior Structural Engineer, lead projects from the initial design stages, leading to the preparation of construction documents and overseeing the construction administration.
- Design structural systems including the development of conceptual and schematic design options.
- Contribute to the effective management of project budget, schedule, and resources.
- Coordinate and participate in the delivery of a consistently high level of work.
- Mentor and train junior staff in technical aspects of structural design and practical aspects of project delivery.

SENIOR ENGINEER (LONDON)

COMPANY DESCRIPTION

Entuitive is a consulting engineering practice with a vision of bringing together engineering and intuition to enhance building performance. We're taking design performance to new heights through our collaboration with architects, developers, building owners and managers and construction professionals.

Our practice encompasses structural engineering, building envelope, building restoration, and special projects and renovation consulting. We earn our reputation by applying our ingenuity and use of leading-edge technology, including BIM, in a wide variety of sectors such as commercial, sports and recreation, mixed-use developments, institutional, cultural, residential, retail, healthcare, transportation, parking facilities and hospitality. It's our collective ability to simplify the complex that makes us who we are.

We are Entuitive.

Entuitive is committed to fostering an inclusive, equitable, and accessible environment where all employees and clients feel valued, respected, and supported.

- Actively coordinate with others in Entuitive for work-sharing, sharing of expertise, development of technical standards, etc.
- Maintain disciplined financial processes, operational systems, and cost control programmes.
- Implement Entuitive's quality assurance program to ensure services offered meets Entuitive's standards and exceeds client expectations.
- Identify and participate in the development of advanced technologies.
- Actively leverage existing and develop new client relationships by participating in industry related committees, events, and programs in order to increase Entuitive's profile.
- Assist in creating project proposals, fee letters and the like.
- Other roles as required.

SKILLS, KNOWLEDGE, QUALIFICATIONS AND EXPERIENCE

- An applicable engineering degree specializing in structures with a minimum of 6 years' industry experience, and chartered or nearly chartered with the IStructE or ICE.
- Must have a good working knowledge of typical engineering software including AutoCAD. Knowledge of BIM processes and best practices would be considered an asset.
- Excellent communication skills and the ability to work with people at all levels including project stakeholders and clients.
- Ability to manage multiple tasks and priorities and deliverables on an ongoing basis.
- Ability to think methodically to design, plan and manage projects.
- Ability to maintain an overview of entire projects while continuing to attend to detailed technicalities.
- Desire to liaise closely with the other service groups at Entuitive to ensure consistent, consolidated and leading edge service across the firm.
- Ability to develop and maintain strong client relationships and assist with business development initiatives.
- Willingness to be Entuitive!
